- MSCF Corporate Presentations, Events, and “NY Recruiting Weeks” (On-Campus Recruiting=OCR/OCI)

- **Handshake**

- CMU Career Fairs, Info Sessions, OCR in Pittsburgh and Recruiting Events

MSCF Internship Search Reality

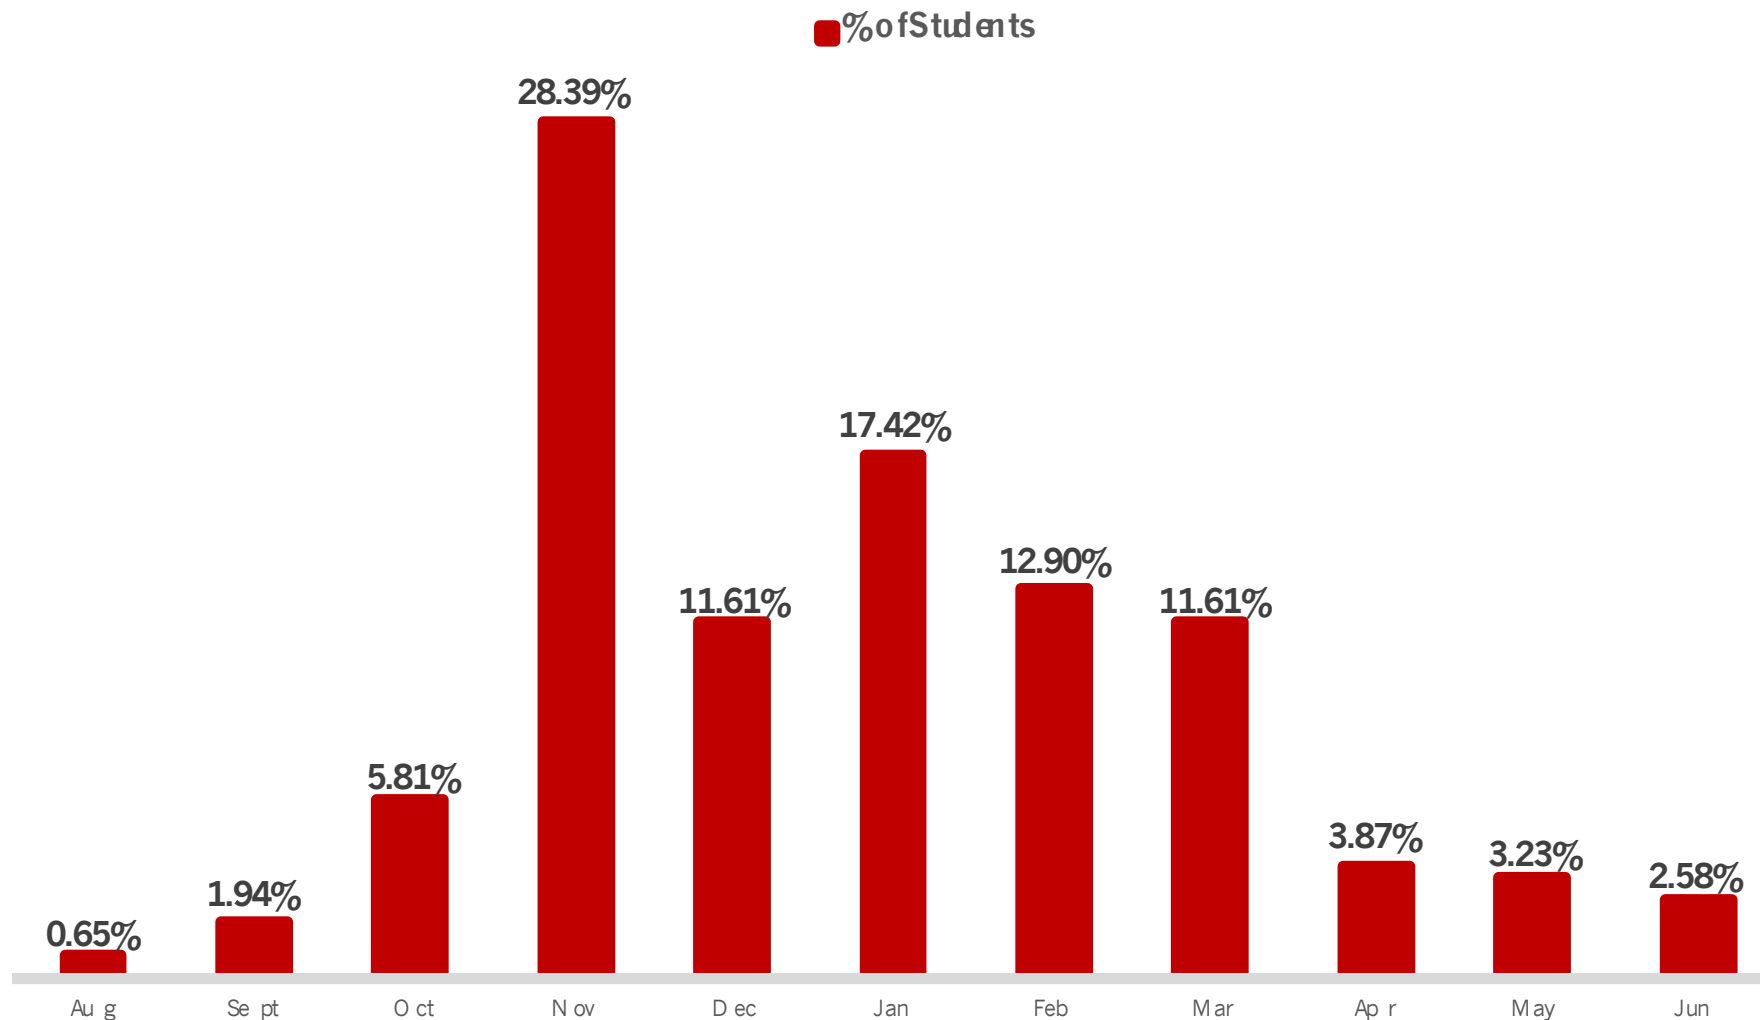

Accelerated Summer Internship Search Timeline

(Timing of Internship Offers & CUMULATIVE total number of offers at the end of each month)

DATE	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018
10/31							0	1	3	11
11/30							3	9	20	55
12/31	n/a	n/a	n/a	n/a	n/a	n/a	12	30	58	73
1/31	10	29	35	38	30	36	49	65	81	100
2/28	27	54	66	74	61	56	96	98	95	119
3/31	41	82	80	100	91	84	110	118	107	136
4/30	59	90	87	107	109	102	122	124	120	142
5/31	79	93	99	109	123	108	130	137	128	147
later	96	93	103	109	142	113	135	143	134	151
JAN % TOTAL:	10%	31%	34%	35%	21%	32%	36%	45%	60%	74%

Note: Obviously, the interviews that produced these offers were well before the offers were extended. These figures only include offers that the students told us about.

First Offer Received for Students Seeking 2018 Internships

Offer Policy Reminder

- Enter all Summer 2019 Internship offers received within 24 hours, whether or not you intend to accept and regardless of the source (Code of Conduct)
- Be sure to include ALL offers that you have declined
- This information assists everyone, impacts Admissions, Rankings & enhances the value of your degree
- This permits us to share real-time data on the job market, allows employers to view real-time data and benchmark w/ peer schools/**QuantNet Rankings**
- Always enter the offer initially as “pending”; you can add more details as you receive them

Reporting Offers in QC

- Demo how to report an offer
- Review job source choices

Offer Deadline “Guidance”

**Summer Internship
Return Offers**

Three weeks or until October 15,
whichever is later

Fall Recruiting

Three weeks or until November 15,
whichever is later

Spring Recruiting

Minimum of three weeks

Offer Deadlines

- Employers/Guidelines—do they listen?
- Requesting offer deadline extensions—meet with your Career Counselors

On-Campus Interviews

On-Campus Interviewing

- Process:
 - OCI Job Posting
 - Pre-Selects from Resume Books
 - Candidate Selection Notifications
 - Interview Scheduling and Notifications
 - Adhere to Deadlines

On-Campus Interviewing

- Day Of:
 - Leave coats and backpacks in your locker or hotel to avoid crowded waiting areas
 - Sign in at front desk area/career services area and take a seat in waiting area
 - Stay seated in waiting area until recruiter comes and calls your name
 - Do not leave the premises if you have a back-to-back interview

On-Campus Interviewing

- If you are not preselected but still interested in interviewing, you may submit your resume on QC (instructions will be emailed to you)
- The recruiter will be given these resumes when they arrive. **If the recruiter decides to add anyone to the schedule, we will contact you. Check your email and have your charged phone on you. Be dressed appropriately to interview that day (suit required)**
- Make sure you have set up a professional voicemail message and that your inbox isn't full

On-Campus Interviewing

- **Always ask about the recruiter's plans for follow-up**
- Send thank you emails/notes immediately, but no later than 48 hours. We will collect business cards and attach them to the interview sign-in sheet
- Second rounds may be at the company site
- We **ask** all employers, regardless of position type, to give students three weeks to respond to an offer (verbal or written)
- Talk with your Career Counselor first before negotiating internship offers!

On-Campus Interviews in PGH

- Interviews will take place at Cohen University Center (CUC) at the Career and Professional Development Center (CPDC)—basement level next to post office
- Check-in at the front desk when you arrive
- Follow ALL directions staff gives you

Interview Feedback

- After completing **three** on-campus interviews through QuantConnect, students can meet with their Career Counselor to review any recruiter feedback on file
- We promise confidentiality to the recruiters
- Company identity is never revealed – we are looking for trends in performance across multiple interviews
- You must make an appointment with your Career Counselor to discuss interview feedback

Corporate Presentations

Corporate Presentations

Why attend?

- To explore career options
- To increase knowledge of a company/industry
- To increase networking opportunities
- Recruiters frequently refer to the RSVP/attendance lists when making their subsequent interview decisions (**so RSVP**)
- Recruiters frequently order lunch, using # of RSVP's in QuantConnect

Logistics

- Time: 12:00pm-1:00pm, unless otherwise noted
- Location: Pittsburgh- Room 145; New York- QuantBot
- Find event details and RSVP in QuantConnect
- **48-hour cancellation policy.** This is when we supply the final count and names of students to Employer. If you do NOT cancel in QuantConnect 48-hours beforehand, then you must email your Career Counselor AND Queeta Welch explaining your extenuating circumstances
- Students can only sign-in for themselves, no other student (this directly violates the MSCF Career Services Code of Conduct)

Additional Events

- Testing Sessions: part of the pre-screen for interviews
- Mock Interviews with Employers/Alumni
- Tabling (informal chats with company reps)
- Office Hours

Event Expectations

- Wear your MSCF nametags and bring resume
- Laptops/tablets and cell phones **should be off**
- Doors will close and lock at appointed start time: no one is admitted or re-admitted to the room once the presentation begins
- Presentations may be recorded (with company permission), and available for viewing on **MediaSite**
- Dispose of your trash/help to clean up for next occupants

Dress Expectations

Dress code is set by the company and included with the event description in QuantConnect

- **Business Formal:**

- Business suit & tie for men
- Business suits (skirts or slacks are acceptable) or professional dresses for women

- **Business Casual:**

- Men must wear collared shirts; polo shirts with collars are acceptable
- Women should wear a blouse with skirt or slacks

Dress Expectations

- No jeans, hoodies, shorts, sweatpants/shirts, ball caps, T-shirts, sneakers, tight/short skirts or flip flops
- If the company representatives are broadcasting to your location, you are still visible on camera; always adhere to the dress code

Avoid

- Wrinkles
- White socks
- Low-cut shirts/short skirts
- Pants that are too long, too short, or too tight
- Uncomfortable shoes/heels that are too high
- Clothing which is too tight or too baggy
- Strong odors (body/perfume/breath)
- Un-groomed hair and facial hair
- Visible piercings or tattoos
- Smelling like a cigarette

Appropriate Questions to Ask

- Would you please describe a project that has been given to a summer intern in the past?
- The Wall Street Journal recently published an article about XYZ issue at your company. How do you think this will impact your business unit/group?
- How would you describe the culture at your company?
- *If this information was already provided, it's appropriate to ask a "Dig Deeper" question for clarification or additional information.*

Inappropriate Questions to Ask

- “What does your company do?”
- “How much do you pay interns?”
- “So what’s the weather like in Boston in the summertime?”
- Also, be sensitive to:
 - asking very detailed functional questions of an HR rep or someone who may not be able to answer it, based on their role within the company

Avoid the Following

- Questions about scandals, firings, politics, or negative news
- **Asking multiple/follow-up questions**
- Questions they have already answered
- Asking questions that are extremely specific to your personal situation—you can ask these afterward or via email

Careers in Quant Finance— Other Considerations

Purpose

- To encourage you to:
- **REALLY THINK** about the market (because it is constantly changing)
- **Develop** a broader perspective on both:
 - the evolving financial services landscape; and
 - the global job market for quantitative finance students
- **Compete** (both internal and external competition is intense!!!)

Tell Me About These...

Dodd-Frank

Cryptocurrencies

Basel III

Jerome Powell

LIBOR / Commodities Trading Scandals

CCAR

Flash Crashes

Brexit

Contango vs Backwardation

Merton Model

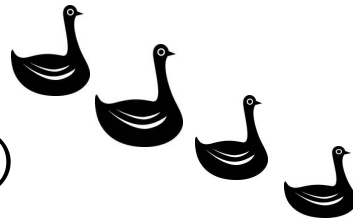

Do you think ongoing issues/debates related to the above are making it **easier** or **harder** for you to:

- pick a career path?
- get a job?

What's Your View?

Who thinks the global economy (and job market) will:

- materially improve,
- stay the about same (e.g. slow growth “new normal” and “new neutral”), or
- slip back into recession (or worse)

during the next 6 to 24 months?

Recent Job Market Conditions

The good news is that **job market** for new quant finance oriented graduates continues to be **strong**. However, given the current **regulatory environment**, **political uncertainty** and **global economic challenges**, the outlook remains tenuous. Looking forward you may expect:

increased competition for **fewer** front-office “sell side” jobs in the US (particularly at the Associate level)

Continued relative strength with **banks & asset managers in Asia**

Growing demand from non-financial services firms

What does this mean?

Prepare to Compete

Given:

- 1) a highly competitive job market
- 2) a tenuous global recovery
- 3) the muddled regulatory environment

prudence would suggest that maximizing your odds of success requires:

- considerable personal time and effort (almost certainly MORE than you previously planned/expected)
- an expansion of your current career “game plan”
- **keeping an open mind with respect to potential roles (e.g.; Sales, Risk, Modeling, Data Science, Asian Trading).**

Prepare to Compete

Stated differently, your MSCF experience will:

- 1) Unlock doors that were previously closed to you
- 2) Help prepare you to compete with students from other MFE programs (as well as with top school Undergrads, PhD's and MBAs)

However, to actually “**WIN**” the job/internship, you will still need to:

- 1) Push the doors wide open (e.g.; via networking, cover letters)
- 2) Successfully compete at the highest level (e.g.; by doing your own research/prep work, practice “mock” interviewing)

Also, since you are all competing for top jobs, only an unethical person or cheater would ask a classmate (who interviewed for the same role earlier the same day) about the specific questions they were asked during an interview. This is the real world (not school), so a real friend/team-mate would **never** selfishly ask you to hurt your chances of getting an offer by unfairly improving theirs.

Prepare to Compete

Employer Feedback - Top employers continue to recruit here because of the high quality of the program/graduates. However, we commonly receive feedback that many of our students can improve in the following 4 areas:

Not convincing: when discussing what the candidates bring to the table. “Here’s what I can do for you” vs. “Why I want to work for you”. Or “understands the concepts taught in school but does not have any underlying mathematical intuition.”

No passion: candidates often fail to demonstrate a genuine/strong interest in financial markets (are you reading & thinking about the financial news every day?)

Not a great fit: candidates fall short in explaining how their full set of skills/interests matches both the company and the job (saying “because I’m good at math/programming” is not enough).

Weak Soft Skills: don’t waste great opportunities because you haven’t thought about (and ***practiced***) the soft skills like ***communication skills and teamwork***. Strong quant/analytical/programming skills are **expected** from all of you!

Important Reminder

It is important at this stage to clearly state that we are **NOT** trying to dissuade you from trying your best to get a job at Goldman, JPMorgan, AQR or Citadel.

In fact, we encourage many of you to do so (they continue to have good jobs, visible HR and well-established training programs)

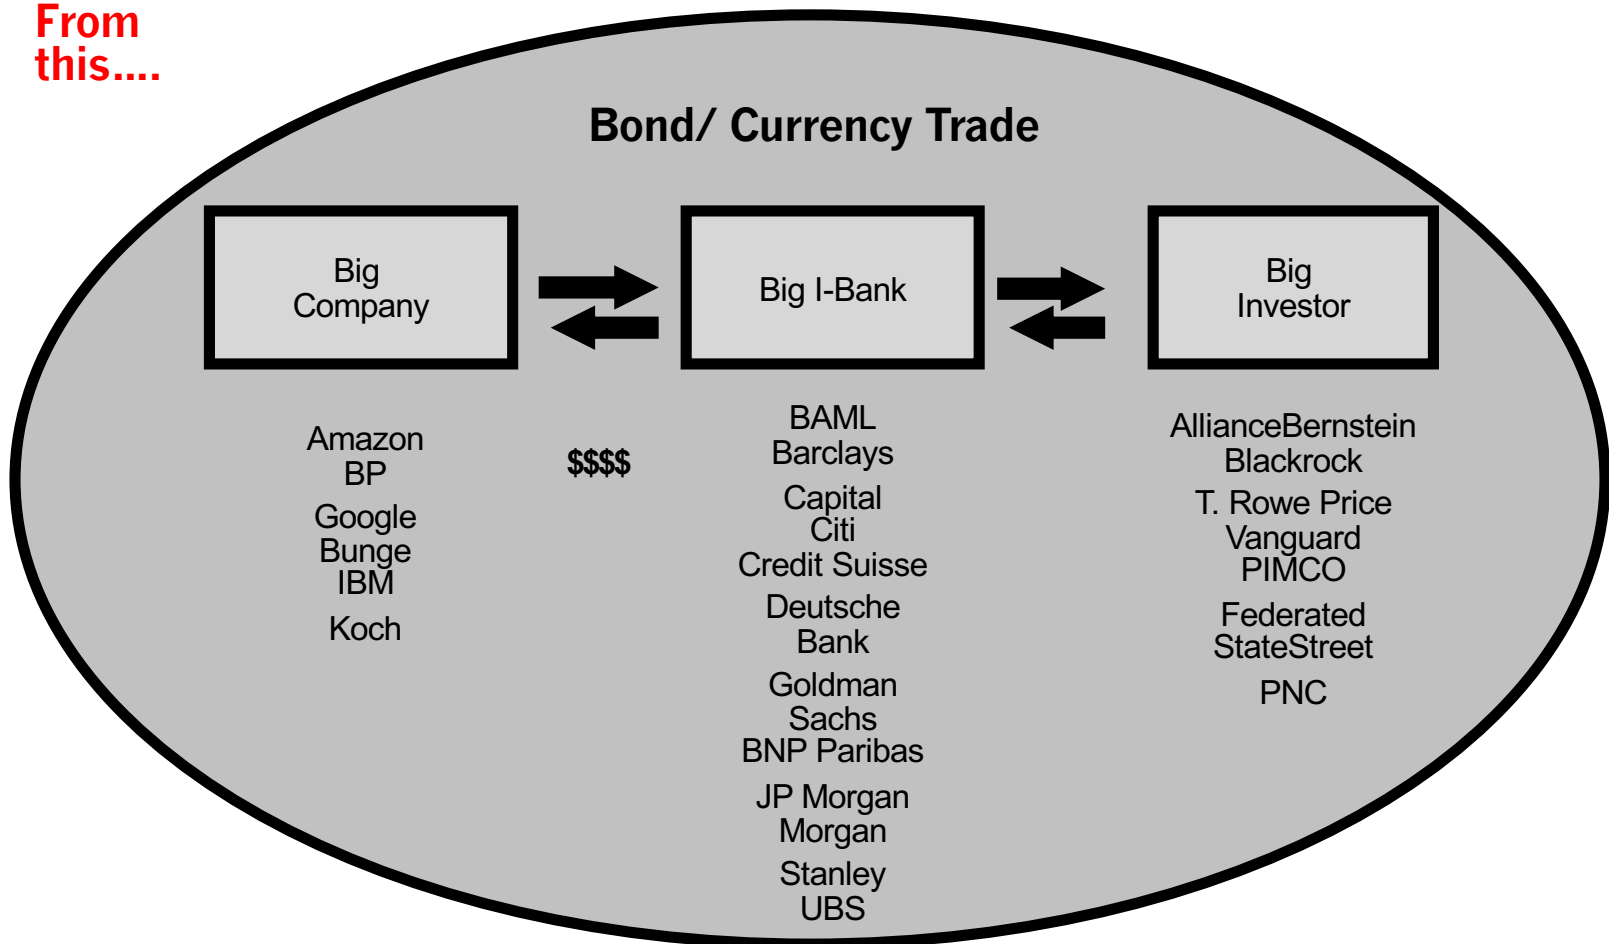

The point is that **limiting yourself** to only the most **obvious** companies may:

- preclude interviewing/working for comparable **or better** quality employers
that you are **MORE** interested in
- reduce your odds of having a job offer (summer internship or full-time)

Now let's continue.....

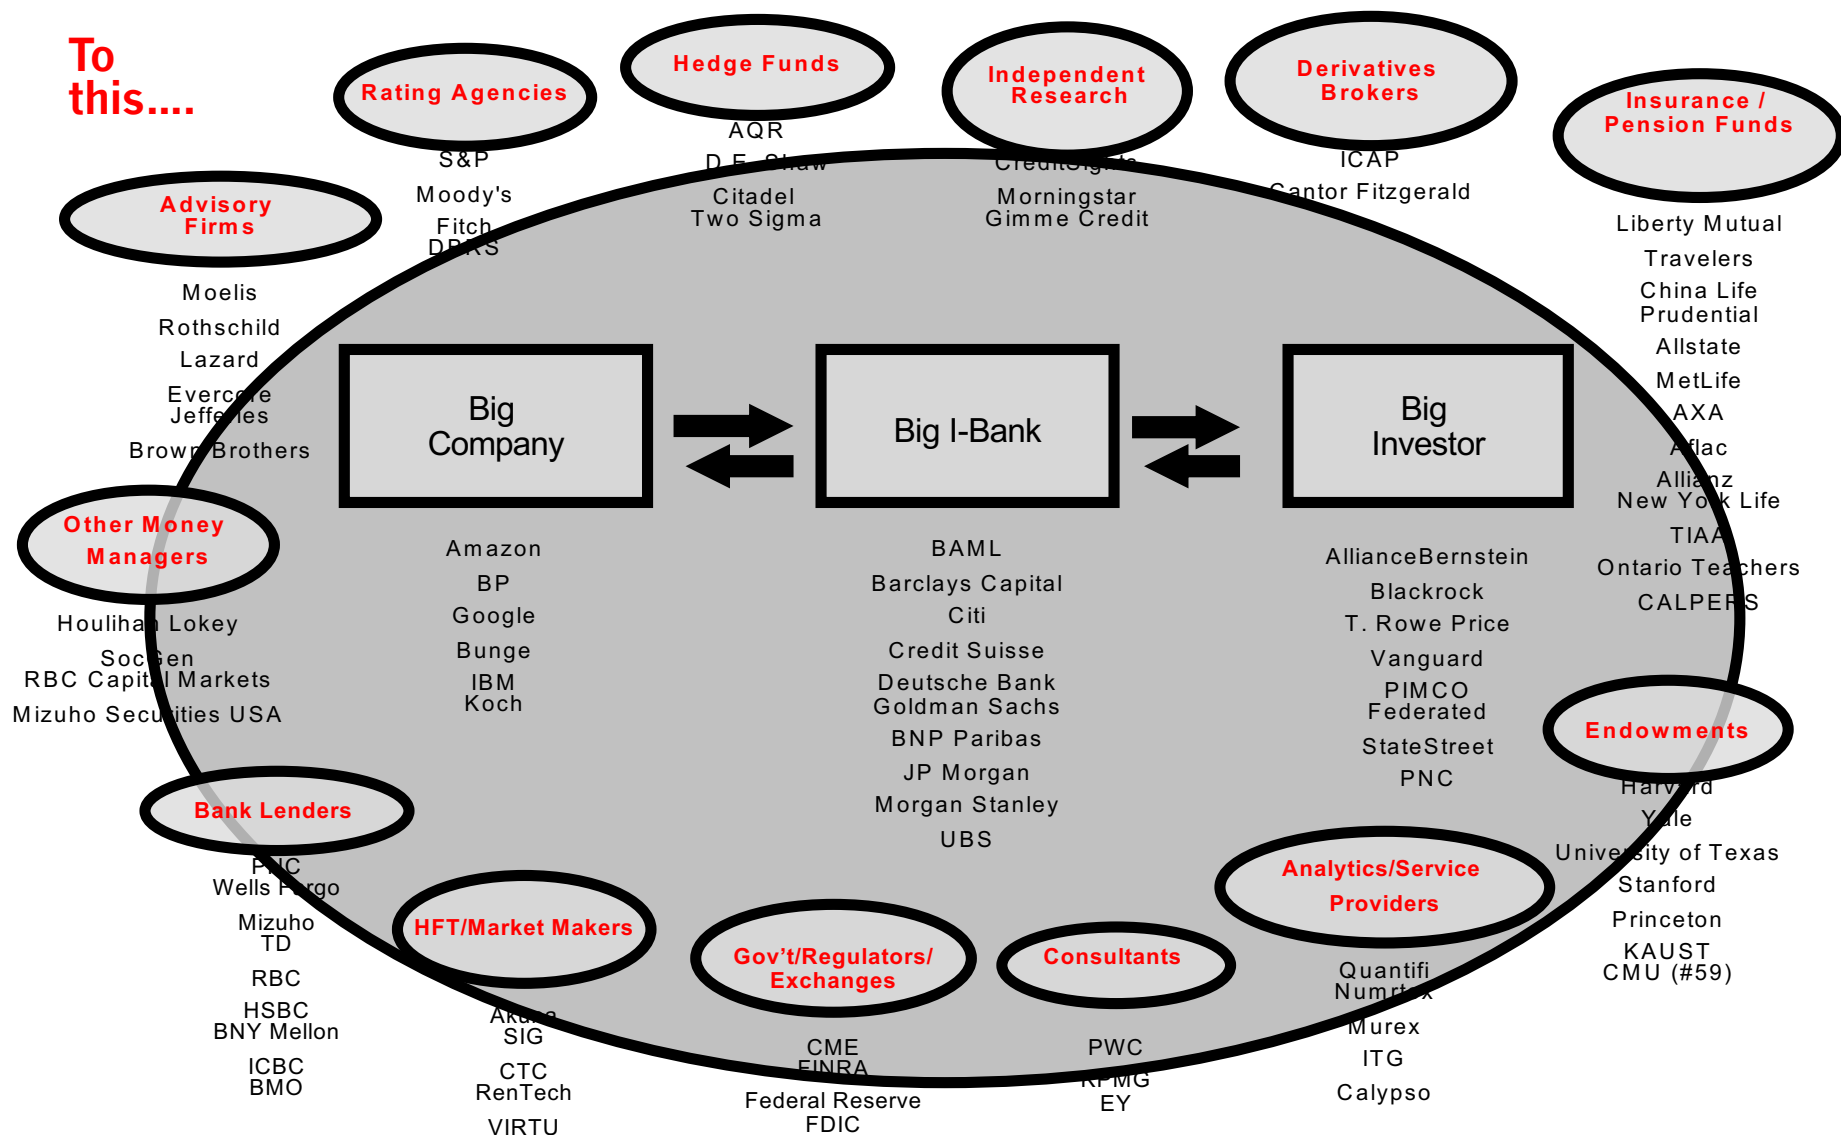

Narrow View

From
this....

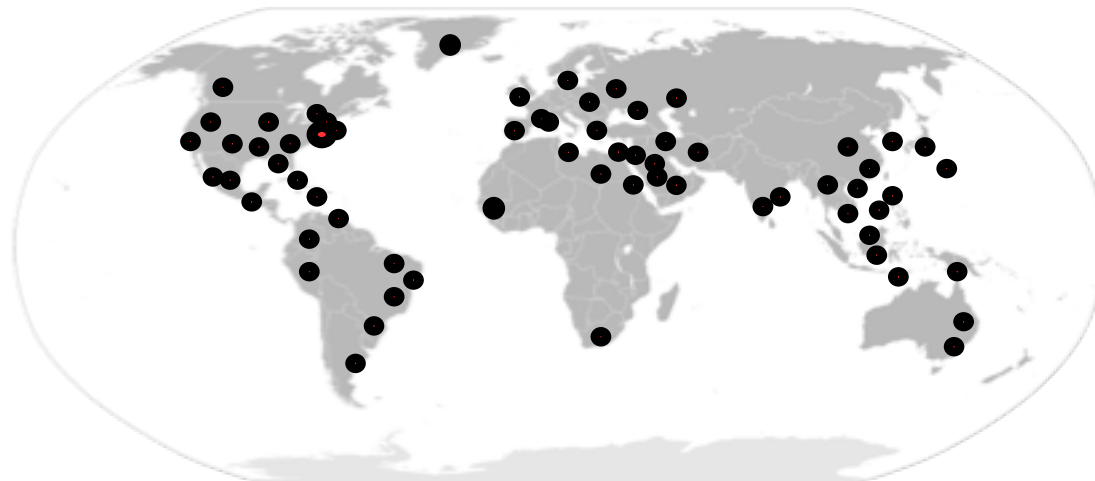

Broadening Your Perspective to Succeed

To this....

Location(s)

Consider/target leading firms in at least two or three national or regional financial centers

Remain open minded with respect to great companies in locations that you have not previously considered

(e.g.; San Francisco, Boston, Chicago.... or even Austin TX, and/or outside the USSingapore, HK, KL, London, Frankfurt, Santiago, Mumbai, Beijing)

LinkedIn Tips

- **Explore Careers/Companies**

- Did you explore the career paths of alumni from your alma mater?
- Did you check out Similar Companies to the ones you're interested in?
- Did you conduct an Advanced Search for people who used to work at your dream employer?

- **Build Your Profile**

- Did you put your desired job title in your Headline?
- Did you flesh out your Summary section with your passion, experience, and skills?
- Did you include all the relevant keywords from the job description in your Experience?

LinkedIn Tips

■ Search for Opportunities

- Don't forget to look at the “job posted by” to see who that person is, if you're connected, or if you know anyone who is connected to them
- Job listings provide “similar jobs” on the right-hand side
- Set job search alert and set frequency to get emailed to you
- Let recruiters know you're open to opportunities by selecting this under jobs page, preferences, then specify your desired roles (recruiters use this as a first filter in many times so they don't waste their time)
 - No one but recruiters can see this! So no one else will know 😊

LinkedIn Tips

- **Connect with Alumni**

- Run a search based on company and title (e.g., "company:google title:accounting" shows you all the accountants at Google)
 - Filter by School (note you can add multiple schools here if you've attended more than one institution)
 - Identify the person you want to connect with
 - Look up their email address in your school's alumni directory
-
- **PLEASE COMPLETE TRAINING ASAP**

Questions?

- Have you tried to upload your revised resume to QC yet? Resume Book deadline is August 12!
